

CERTIFIED LEAN PRACTITIONER YELLOW BELT

Rapid Improvement Through Kaizen

DELIVER KAIZEN IMPROVEMENT

Stimulate a Lean culture in your organisation

Packing the basics of Lean improvement into a 2-day course, you will learn the thinking, approach, and tools required to implement Lean improvements through Kaizen-based rapid improvement methodology.

You will be exposed to Lean improvement principles such as waste elimination, pull, and flow, as well as various tools and techniques that can enable the application of these principles.

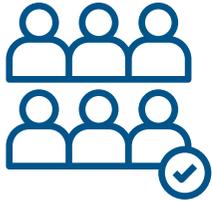

This will help you to tackle problems quickly and effectively, and stimulate a lean culture at all levels of your organisation.

You will be able to...

- ✓ Identify and eliminate waste and non value-adding activity from processes
- ✓ Plan and execute successful Kaizen events
- ✓ Understand core Lean improvement principles such as pull, flow, and work balancing
- ✓ Apply Lean improvement tools in the workplace
- ✓ Have confidence in applying Lean in the context of process management
- ✓ Develop your personal leadership skills in business improvement

AN IMMERSIVE LEARNING EXPERIENCE

Supporting growth through our engaging learning environment

Suitable for anyone interested in business improvement at all levels and functions. Up to 12 delegates

2 days in class or remote via our live virtual classroom

Full suite of online tools and templates plus unique e-Learning

WANT TO KNOW WHAT IT'S LIKE TO LEARN WITH PMI?

Our clients say it best

"I really enjoyed the course!
It was well designed with
theory interspersed with
practical exercises."

"It was very informative and
everyone finished the course
in high spirits, looking
forward to implementing
Kaizen events as soon as
possible."

"The PMI consultant was very
good. He explained using
brilliant examples and kept
us engaged throughout the
whole course."
